# YOU AND YOUR TEAM SCORED HIGHEST IN THE **RISK & MASTERY** CATEGORY.

Use this to your advantage! We live in an achievement-oriented, instant gratification-seeking society. Organizations are expected to take great risks and offer tremendous value in order to satiate consumer demand. The way you contribute within your team is the way you will contribute to society.

You are a power team predisposed to not only achieve your department objectives and business objectives, but to change the world. This is possible, in part, because of your comfort with ambiguity, uncertainty and calculated risk-taking.

Your ability to take action and influence decisions makes you both a leader and a disruptor! You master your responsibilities and tend to have a business tone that sometimes sounds daring, inspiring or challenging – but always rings confident.

## **DO:**

- Continue setting the bar high
- Strive to surpass that lofty goal or beat that direct competitor
- Dare to transform the current reality to something even better

## **DON'T:**

- Manipulate to achieve your goals
- Use radical measures to get what you want
- Be arrogant or ruthless when communicating with others

Learn more about the 3 Archetypal identities that may be driving your team toward Risk & Mastery and how you can better align with *other* personalities in your workplace.
